

$$P = F/S$$

✓ **Applications**

This primary standard Range are designed to test, adjust and calibrate measuring instruments, mechanical or electronic pressure by comparison (pressure gauges, pressure transmitters or sensors or switches)

The dead weight tester consist of a pressure generator, a piston/cylinder unit, a set of weigh identified. The capstan is used to generate a pressure pushing the fluid through the piston. This pressure is balanced by the piston/cylinder assembly which allows to compare the instrument to be calibrated to the pressure values generated by the standard.

This reference instrument are used in factory or calibration laboratory. They are robust and easy to use – and have a high long-term stability.

✓ **Technical specifications of the range BH1**

- Calibration :	Our dead weight tester are calibrated under the following conditions of use : Temperature 20°C - Pressure atmos. 1013.25 hPa - Humidity 50% - acceleration 9.80665 m/s ² In case you don't use it under the conditions mentioned above, it is necessary to recalculate the pressure generated by the dead weight according to the different variables.
- Fluid :	Mineral oil colorless, compatible with medical or food uses – tank volume 125 cm ³
- Check/adjust the seat :	leveling bubble and adjustable feet
- Connecting for the instrument to be tested :	swivel G1/2 standard – other optional fittings
- Rotating weigh :	Training masses : manual rotation
- Crankcase :	Light alloy aluminium AG3 + high-resistance paint
- Capstan :	removable for transport
- Piston/cylinder :	Single piston hardened steel - Repeatability : 1.10 ⁻⁴ - Sensitivity : 5.10 ⁻⁵ - Precision dead weight : 10 ⁻³
- Weight :	Corrosion treated steel – total Weight of the set of weights from 12 kg to 48 kg depending on model – Ergonomic shape of the masses, easy loading of the masses on the bell - Marking corresponding with the measuring unit choose (bar, mbar, KPa, PSI etc..) Gravity : standard (9.80665 m/s ² or local gravity without supplement
- Operating temperature:	18 to 28°C – 64 to 82°F
